

**ARE FAVORED BY
SUPREME COURT**

Judgment of Lower Courts
Is Reversed in Two
Cases—New Tri-
als Granted.

ONE A MURDERER

"Powder Up" Collins and
Philip Ryan To Be Given
Another Chance to
Go Free.

(Special To The Gazette.)
Madison, Wis., Nov. 11.—The su-
preme court this morning granted a
new trial to "Powder Up" Collins, the
Milwaukee saloon man convicted of
robbing a man last January, a reversal
of judgment of the lower court that
sentenced him to five years in pris-
on.

Given One More Chance
A new trial was also granted to
Philip Ryan, convicted of killing
Frank O'Brien at Antigo last Decem-
ber and sentenced to prison for two
years. The court decided that the
judge's instructions to the jury that
brought in the verdict was not war-
ranted by the testimony.

A Possible Chance
The court also held that there
might have been a chance that the
homicide was committed by accident
and without unlawful intent and that
this should be submitted to the jury
at the trial.

striking miners.

The Cowboy.

The cowboy's idea of a good time is
measured by the amount of money it
costs him. When he goes to Kansas
City with a trainload of stock he gen-
erally has a good time, says the
World's Work. A good time means
champagne. Champagne comes high;
it is unquestionably genteel; therefore
the cowboy buys it at all hours. A
cowboy's breakfast order in a leading
Kansas City hotel cafe was: fried cat-
fish and champagne.

Tips Discouraged in China.

The tipping system is not encourag-
ed in China. An execution recently
took place outside the gates of Tai-
Yuan-Fu. The decapitated corpse be-
longed in life to a telegraph messen-
ger. On the occasion of a great festi-
val he asked for tips from some leav-
ing merchants who habitually used
the telegraph office. The governor of
the province heard of it and took
prompt steps to suppress the nu-
isance.

Crown Prince Not to Marry.

London Truth says there is not a
particle of foundation for the report
that the German Crown Prince will
shortly be betrothed to Princess Alice
of Albany, and adds that the Crown
Prince is not yet 20, and there is not
likely to be any serious idea of his
marriage for several years to come,
as the succession to the Prussian
throne is now well provided for.

Pleasant Alternative.

An amusing story is told of a man
condemned to death recently in
France who was asked, according to
custom, what he would prefer for his
last meal. He chose mussels, which,
though his favorite dish, always, he
said, caused him a terrible indiges-
tion. "This time, however," he added
grimly, "they will not have the
chance."

**THROUGH CEILING
INTO BANQUET**

Beloit Sophomores Raid Freshman
Feast in an Unusual Man-
ner of Entrance.

(Special To The Gazette.)
Beloit, Wis., Nov. 11.—The warm-
est class scrap known here in a long time
was the attack of the sophomores on
the freshmen's banquet last night. If
the purpose was to break up the ban-
quet then the sophs were highly suc-
cessful. The freshmen tried to keep
the time and the place of their ban-
quet a secret but failed to do so, and
while they were enjoying their spread
in the Knights of Pythias hall the
sophomores climbed upon surround-
ing buildings broke in some windows
and showered the banquet hall with
eggs, foul smelling chemicals and liq-
uid glue. The freshmen resisted vig-
orously and clothing was torn on both
sides.

Through The Ceiling
While the battle was on some sopho-
mores fell through the ceiling into the
banquet hall. This led to a call for
the police and among the officers to
first reach the scene was Chief of Pol-
ice Appleby, sheriff-elect. With
other officers he began to force an en-
trance to the hall, and when the
sophomores resisted the chief made
it known that he was not a student,
and proposed to enter the hall, where-
upon the doors were opened and the
officers rounded up the Sophomores,
securing their names and a pledge to
report to him if he wished them.

Stole Viands
After seizing the viands the sopho-
mores ran through the town eating
and yelling. The freshmen ral-
lied as best they could, consumed
what was left of a fine dinner and car-
ried out their toast program without
further interference.

New York, Nov. 11.—President
Roosevelt and his party, consisting of
Secretary Cortelyou, and his physician
Dr. George A. Lund and secret ser-
vice men arrived in the city early this
morning to attend the opening of the
Chamber of Commerce.

Leaves Tonight
Tonight at midnight the president
and his party will leave for Memphis,
Tenn., arriving in that city on Thurs-
day morning. From Memphis the
President will go into Mississippi
for a five days' bear hunt.

To Honor Wright
On the 19th of the month he will
return to Memphis to be present at
the ceremony of greeting General
Luke Wright, vice governor of the
Philippines. He will arrive back in
Washington on the morning of the 21.

FIND MISSING BANKER'S BODY

Remains of Nathan J. Perles Are
Taken From Lake at Milwaukee.

Milwaukee, Wis., Nov. 11.—The
body of Nathan J. Perles, who disap-
peared from his home under mysteri-
ous circumstances a month ago, was
taken from the lake. There were no
marks on the body and the theory of
suicide is advanced. The young man
had an interest left him by his father
in a lucrative banking business and
the only motive suggested for suicide
was an unfortunate love affair.

Russian High Priest Resigns.
St. Petersburg, Nov. 11.—Pobodon-
ostov, procurator of the Holy Synod,
has tendered his resignation to the
czar on account of old age, and the
resignation has been accepted.

Shoots Himself.
Washington, Nov. 11.—William
Grant Roe, a druggist with two stores
in this city, committed suicide by
shooting himself in the head. The act
is attributed to ill-health.

Long-Lived Pensioners.
The names of two women are still

**ENGLAND WARNED
TO WATCH KAISER**

British Ministry Advised by London
Newspapers to Shun Ger-
man Influence.

(Special By Scripps-McRae.)
London, Nov. 11.—The English
press continues to regard the German
emperor's visit with suspicion and dis-
trust. He is not lampooned nor car-
icatured, but it is generally assumed
that he is here for business purposes
and must not be allowed to have what
he wants. Conjectures respecting
his mission differ widely, but the con-
clusion is the same in every instance
—namely, that the British ministers
must be on their guard and decline all
overtures for joint action between
England and Germany, whether in
East Africa, Asia Minor, or the Yang-
tze Valley.

Present Treaties Must Stand
Public opinion, as expressed by
journals of both parties, is so un-
friendly to Germany that it is hardly
credible that the ministers can be
drawn into new diplomatic engage-
ments; but the compact made dur-
ing the Boer war cannot be repudi-
ated. The Anglo-German agreement
respecting China was not a good bar-
gain for England, but it has not lapsed
in consequence of the termination of
the Boer war and difficulties respect-
ing the evacuation of Shanghai are
connected with it.

Secret Treaty
There is also a secret agreement
or understanding between the two
powers respecting Asia Minor also.
These arrangements were made when
the British ministers were pre-occu-
pled with the war in South Africa
and anxious to avail themselves of
the good offices of the German emper-
or. Naturally his interest is great-
er than theirs in disclosing these
transactions. Meanwhile the pub-
lic is dependent upon court circulars
for details of the royal doings at
Sandringham, and leader writers are
unduly serious in their warnings
against the insidious wiles of German
diplomacy.

**LONDON JEWS HONOR
THE NEW LORD MAYOR**

Hebrews Banquet Ghetto Residents
on the Accession of Sir Marcus
Samuel to High Position.

London, Nov. 11.—For the first time
in the history of London the lord may-
or's procession traversed the unfash-
ionable thoroughfares of Petticoat
Lane, in the heart of the ghetto, in
recognition of the Jewish ancestry of
Sir Marcus Samuel, the new lord may-
or. Hebrew London especially cele-
brated the event, and the poorest in-
habitants of Whitechapel and Hounds-
ditch were banqueting at the expense
of their wealthier co-religionists.

The quaint annual progress of the chief
executive of the city through the
streets of the metropolis was proba-
bly more brilliant than usual. Seven
richly decorated floats and fifteen
bands representing crack regiments,
together with the city officials and the
London guilds, made up a long pa-
geant. A novel feature was a float
representative of the Anglo-Japanese
and British bluejackets. The proces-
sion left the guild hall at 11 and trav-
ersed the principal streets of the old
city of London to the law courts,
where, according to the custom, the
lord chief mayor was presented to the
lord chief justice and was sworn in.

Washington, D. C., Nov. 11.—Record-
er Wright of the coal strike commis-
sion this morning made public Presi-
dent Baer's answer to the demands
of the miners for the increase of pay
and shorter hours. It denies in total
all the claims and demands.

Some Answers
First, that the twenty per cent. in-
crease is not practical and necessary.
Second, that one month's time was
developed that the living scale is not below the aver-
age of the American worker and that
the children are not forced to work.

Tells of Care Taken
That the miners are themselves
to blame for the small earnings by
refusing to work. That hospitals and
schools are provided and nowhere are
the miners better cared for than in
the Pennsylvania fields.

SHANGHAI QUESTION WORRIES

Parliament to Take Up Matter Despite
Kaiser's Visit to Nation.

London, Nov. 11.—It is expected the
differences between Great Britain and
Germany regarding the evacuation of
Shanghai will be the subject of a num-
ber of questions in the house of com-
mons, although possibly the govern-
ment is not yet in a position to make
a statement on the subject, while it
would be obviously awkward to have a
debate when the Kaiser is a guest of
the country.

Offers to Cut Coal Price.
Knoxville, Tenn., Nov. 11.—The
chamber of commerce railroad com-
mittee has received assurances from a
Jellico operator that if the railroad
will furnish 200 cars a week to Jellico
district, the price of domestic coal at
the mines will be reduced to \$2.50 per
ton, a reduction of \$1.

A Strange Calculation.
Taking the length of the permanent
railways on the surface of the globe
at nearly sixty thousand geographical
miles, with a daily average of ten
trains, it is estimated that the total
loss suffered by wear and tear each
day by the metallic rails of the earth
is about six hundred tons. The six
hundred tons are lost in the form of
fine powder, and are carried back to
the earth in the shape of soluble iron
salts.

**IMPROVED GUN
FOR THE ARMY**

New Rifle Dispenses with the Bay-
onet and Scabbard, and Is
Lighter.

(Special By Scripps-McRae.)
Washington, D. C., Nov. 11.—Brig.
Gen. William Crozier, chief of the bu-
reau of ordnance, in his annual re-
port to the secretary of war says that
the improved army rifle has been com-
pleted and tried with satisfactory re-
sults. The new rifle is a feature
of the new rifle. It lightens the weight
of the gun and dispenses with the
bayonet and bayonet scabbard now in
use and in the place of which en-
trenching tools may be carried by the
soldier. The new piece weighs but
a little less than 9 1/2 pounds, con-
siderably lighter than the German and
the Mauser, yet has greater velocity
and greater penetration.

His Report
General Crozier embraces in his re-
port the conclusions of the board of
ordnance and fortification on the re-
cent tests of the several systems for
a new field gun. It will have a calibre
of three inches and will fire a pro-
jectile weighing fifteen pounds, with
an initial velocity of 1,700 feet per
second. A new feature will be the
bullet proof shields.

Army Maneuvers
One chapter deals with the recent
army and navy maneuvers. It was
developed that one month's time was
not sufficient with the shipping fac-
ilities at hand to supply by ordinary
means of transportation such a
large amount of projectiles and ammu-
nition as were required by the coast
fortifications. It is suggested that
special means must be provided in
the future.

(Special By Scripps-McRae.)
Chicago, Ill., Nov. 11.—Another con-

decision will be reached before tonight
as to what will be done.

May Be Settled
All signs now point to an amicable

the railways and their employees and
it is now not thought that a strike

Outside Influence
Outside influence in the shape of
the new switchmen's union that has

HISTORY OF OUR FIRE FIGHTERS

WRITTEN BY THE DAUGHTER OF THE DECEASED CHIEF.

SOME INTERESTING FACTS

Account of Janesville's Fire Department Published in New York Firemen's Herald.

The following history was written and read in the High School by Miss Jessie Spencer, daughter of the late Chief, John C. Spencer:

"What starts the blood quicker and puts the nerves on edge more than the quick ring of the fire bell? Every one stops for a moment and counts the taps and wonder is 'it's near home. How much does it mean to the fireman—a start, and then a run for the scene of action, perhaps to work for hours in fire and water. For hundreds of years back this problem of fighting fires has been a serious one, and improvements have been made in apparatus and appliances until it has become a profession in itself. Janesville is fortunate in having more than an ordinary good fire department, and the fireman of forty years ago looks with pleasure at the work done by his successors of the present day.

Way back in 1853 our department was an unorganized 'bucket brigade' until after the burning of the Stevens House (now the Armory block). After this fire the people saw the need of protection, and a hook and ladder company was organized and the men uniformed. In 1854 two hand engines were purchased and two companies organized by the Common Council. The engines arrived in June, 1855, and then two fire engine houses were built on the sites of the present fire stations.

Soon a new hook and ladder company was organized, and a new modern truck purchased. A frame house was built for the truck on the corner of Wall and Franklin streets. In March, 1856, the old Sack company, now the Fire Police, was organized. This was the first department in 1856, when the city purchased two steam engines to take the place of the hand engines. The fire stations were built later, and the hook and ladder truck placed in new quarters on North River street.

After the introduction of steam fire engines the department was reduced from seventy-five men in each company to twenty-five. The hand engines and truck had been pulled to the fires by men, and now horses were introduced, making the work of the men much easier at the time of the fire.

When horses were introduced into the department the men were reduced from twenty-five to twelve in each company, and finally horses were purchased for the hose companies.

The steam engines were put aside in 1888, as the water works was completed that year. The men were reduced from twelve to six in each company. In 1893 the Sack company was reorganized and the name changed to Fire Police. A committee was appointed to purchase an outfit, no limit being made as to cost, but that it must be a suitable equipment for extinguishing fires. From the Chicago Fire Patrol they purchased 4,320 square feet of tarpaulins, two Babcock fire extinguishers, and all necessary appliances. The first team, a dapple gray, cost them \$480. The second team was purchased January 22, 1890, at a cost of \$425. The third team was purchased in Chicago, December 15, 1890, at a cost of \$464. This team is now in use.

This company of fire police is the only volunteer company of its kind in the United States, and our city ought to feel proud of them. The fire police are of great use to the city, and were it not for them many small articles would be missing after a fire, as sneak thieves would take many valuable articles. The fire police not only act as firemen using chemical extinguishers, but take charge of the burning property and see to it that no one save firemen and the owners enter, thus preventing many robberies. The patrol is often called for ambulance duty, and is accompanied by members of the fire police and the company's wagon. The service thus rendered is given in the best of spirits, no matter how bad the day. If there is an ambulance call the men leave any work they may be doing and tend the needs of the sufferer. They receive no pay for the service so gladly rendered.

Two per cent. of the premiums of fire insurance goes to this company, and it is used for supplies for the wagon and to pay the expenses.

When all vacancies are filled the fire department consists of forty officers and men (including fire police of twenty men) two hose wagons, two hose engines, one aerial hook and ladder truck, one patrol wagon, one steam fire engine, ten horses, together with hose, ladders, spreads, covers, etc. There are about twenty-one miles of water main and 374 fire hydrants. Each hydrant is more than equal in power and capacity to one steam fire engine. The Gamewell fire alarm system is now used by the department, fifty-two street boxes being located in different parts of the city, requiring about twenty-eight miles of wire to connect these boxes with the central office, town bell strike, gongs and other electrical machinery, making the department very complete so far as equipment.

The men of the department are so well drilled that at any time, day or night, men all in bed, they are on the way to the fire in less than fifteen seconds after the alarm is sounded. The run to the Chioate-Hollister factory was made in seven minutes, the distance being two miles.

With the growth of the city the number of the fires increase, and this means additional fire protection is needed. The steps in extinguishing and preventing fires cannot be taken place all at once, but step by step, as

new apparatus and new appliances are invented.

The Janesville Fire Department did not become the department of today in one or two years, but it has been growing and improving since 1853 and as time passes new and improved methods will be adopted by the Common Council until our department will be spoken of with pride, not only by the citizens of Janesville, but by the people of Wisconsin.

Chief Henry C. Klein, who succeeded John C. Spencer, who died September 9 of this year, as Chief of the Janesville Fire Department, was born in Chicago, December 5, 1869, and went to Janesville in 1881. In December, 1890, he became a member of the department as superintendent of the fire alarm telegraph system. Subsequently he became a full member of the department. He is an inventor of ability, an electrician and a good fireman, who knows the construction of the most of the city buildings, and is well fitted by nature and education for the position.—Fireman's Herald, New York.

REUNION IS HELD BY FALTER FAMILY

Fortieth Wedding Anniversary of Mr. and Mrs. John Falter is Pleasantly Observed.

Members of the Falter family held a happy reunion on Sunday, the gathering being held at an observance of the fortieth anniversary of Mr. and Mrs. John Falter's wedding day. The day was enjoyed by twenty people, the guests being limited to the children, grand children and other relatives of the venerable couple.

Neither Mr. nor Mrs. Falter had intended to mark their anniversary with any special observance but the children held other plans for the day and completed all the arrangements for the family reunion without the knowledge of their parents. When the guests began to assemble at the home, 353 South Franklin street, on Sunday morning, they had the pleasure of perpetrating a complete surprise on both Mr. and Mrs. Falter, who were delighted at this evidence of remembrance on the part of their children.

Family Feasts
The entire day was devoted to the celebration, an elegant dinner and supper being served. Both repasts were bounteous and the service was faultless. The intervening hours were spent informally and socially and the reunion was heartily enjoyed by every member of the company. Among the handsome presents received was an elegant cape for Mrs. Falter and \$5 in gold for Mr. Falter.

Old Residents
Both Mr. and Mrs. Falter are old time residents of this city, having made Janesville their home even before their wedding. They have resided here all their married life, Mr. Falter having been proprietor of a shoe shop until illness forced him to retire from business some years ago. For the past six years he has been a confirmed invalid, being confined to his chair at his home. His fact made the gathering of his relatives at his home all the more enjoyable to him.

Their Children
Mr. and Mrs. Falter have three daughters and two sons. Mrs. William Koch, Mrs. Otto E. Kronitz, Miss Emma Falter, John Falter and Edward Falter, all of whom were present. Among the guests were also their children by marriage, William Koch, Otto E. Kronitz and Mrs. Edward E. Falter. Mr. and Mrs. Herman Gault and William Gault were also present, the gentlemen being brothers of Mrs. Falter.

Best Wishes
The host and hostess of Sunday have many friends in the city who will extend hearty congratulations on the anniversary just past and best wishes for the future.

DENOUNCE IT AS A PUBLIC NUISANCE

Spring Brook People Claim Health is Menaced by Backwater Where Vegetable Sewage is Deposited.

Spring Brook residents are waxing furious over the condition of the back water of Rock River, near the Robinson brewery. A sewer from the Hohenadel cannery factory empties there, and brings down the vegetable refuse from the canning floors. Instead of emptying into the deep, swift flowing channel, the sewer is so far away in the more quiet water of a branch stream, that there is no current to carry away the sewage.

Vegetable Matter
This mass of vegetable matter has filled up the back water, and rotted, sending its aroma far and wide across the flats to the door of every property owner in the district. Complaints have been frequent, but they have not been made to the proper authority, no one taking the trouble to bring the matter direct to the health officer. In the condition in which the water now is every breeze scatters typhoid germs broadcast through Spring Brook.

PORCH SHADE CO. IS PUSHING WORK

One Building Roofed Over—Another Has Wall Nearly Completed—Supplies on Hand.

The warehouse of the Hough Porch Shade company has been roofed over and the power house walls are nearly ready for the rafters. On the main building the work is not being pushed so rapidly just at present, but going along at a steady gait. Messrs. Farnsworth and Hough have guarded against one item which has delayed many contractors in the city and that is a shortage of supplies. Their arrangements in that respect were well made.

ONE DEPARTMENT HAS SHUT DOWN

No More Kraut Will Be Canned at the Hohenadel Canning Factory—A Busy Season.

Canning kraut has come to an end for the season at the Hohenadel cannery factory. In the pickling department men are still busy in carrying on the latter stages of the pickling process and in the rest of the factory a large number of men are employed in packing, crating and boxing the products for shipment. The factory has enjoyed a season of unprecedented activity, and in spite of all the early howls of poor crops, and ruined vegetables, there has been no dearth of the products which are used by the cannery factory. On the other hand the cabbage crop, especially, has been so great that it was impossible to utilize all that the farmers have wished to bring in.

SPRING BROOK GROWS POPULAR

Many Sight Seers and Prospective Investors Visited the South Side Suburb on Sunday.

All eyes are now turned in the direction of Spring Brook. Everyone who is thinking of investing in building property is looking up the possibilities of that district, and those who have no idea of building are looking around so as to be able to tell others what to do. Still others are simply interested in the new factories which are going up and have recently been completed.

Large Crowds
Last Sunday crowds thronged Spring Brook all day. Parties in carriages and on foot were making their way about the locality to gain as complete a knowledge as they could of the work that is being done, and has been done. Every Spring Brook man and woman and child has gained about a foot in stature since the Sabbath and soon they will all regard the business parts of Main and Milwaukee streets as merely a suburb, the South Side being the important part of the city.

FRED FELTZ, JR. HAS GONE TO CHICAGO

Enterprising Young Man Has Purchased the South Shore Poultry Yards.

Fred Feltz, Jr., went to Chicago yesterday morning to enter upon a business venture for himself as proprietor of the South Shore Poultry yards. Mr. Feltz has recently purchased the yards which are situated on Seventy-fourth street opposite one of the Chicago golf links. The South Shore Poultry yards is an established enterprise and is widely known to the business world which is interested in poultry and Mr. Feltz is to be congratulated on being able to secure this valuable property.

Mr. Feltz is one of the well known and enterprising young men of this city. He was formerly employed at the Janesville Bar Wire works but for some time past has been unable to work on account of a broken shoulder. The injury is completely healed, now, however. His many Janesville friends wish him success in his Chicago business to which his integrity and industry entitle him.

ANOTHER LARGE SERVICE HELD

Messrs. Hunt and King Speak and Sing at the Baptist Church—Theme, "Gospel of Work."

At the Baptist church last evening a number heard the address by the lawyer-evangelist, Charles N. Hunt, and the singing and violin playing by Roscoe King. Both men were listened to eagerly and attentively and those who had heard the two men before were even more impressed by the power of their work, than they had been at first.

Mr. Hunt's theme was the "Gospel of Work." It was illustrated with the parable of the Talents, and the every day application of the same truths. His efforts were marked by the same clear cut, logical, and reasonable style of talking which has characterized him in each talk thus far. The meetings will be continued through the week.

MANY CANVASBACK AT LAKE MENDOTA

Fourth Lake Promises to Rival Lake Koshkonong as a Field for Sportsmen.

Lake Mendota bids fair to rival Koshkonong as a resort for the canvas back ducks. During the last three years the ducks have been visiting Mendota in increased numbers, and this year there is said to be an immense number of them feeding there on their journey south.

Only a few of the Madison sportsmen hunt them and they are practically unmolested from the time they arrive at the lake until they depart. This may be one reason why they stop at Mendota in numbers instead of at Koshkonong. There is said to be large quantities of feed in some parts of the lake where the water shoals somewhat. A number of good bags of canvas back have been made this fall, one hunter securing 28 from a shore blind in one afternoon.

We sat at the table together. She cast a sly glance over at me. She certainly looked like an angel. Oh, Chieley! Please order me Rocky Mountain Tea. Smith's Pharmacy.

DOUKHOBORS ARE DRIVEN TO CARS

RUSSIAN FANATICS ARE SENT TO THEIR HOMES.

THEY WERE VERY STUBBORN

Struggled Wildly and Chanted Weird Songs While Forced Into a Waiting Train.

At last the Canadian government has decided that strenuous methods were necessary to fight with the desires of the fanatic Doukhobors to search for the Messiah. Aided by four hundred farmers and citizens from Yorktown the Canadian mounted police have placed the poor unfortunates on the cars and sent them back to their homes. They are hungry and while not using force resisted bravely the attempts of the people to save them from themselves.

A Special Train
The railway special of ten coaches which left Minneapolis last night with the Doukhobors arrived at Yorktown this morning. The fanatics were immediately unloaded and driven to their northern villages by the mounted police. The action probably ends the most remarkable experience in Canadian history, and one of the most exciting in the history of the Northwest.

At Minneapolis last night the fanatics were forcibly entrained, loaded in cars like cattle, and guarded by a large detachment of mounted police, who were kept busy during the trip preventing the Russians from throwing themselves from the car windows. The Doukhobors arrived at Minneapolis Friday night en route to Winnipeg. The journey attempted to resume, standing at 10 below zero. Government officials held them with difficulty in the bay road until the military special train arrived with 500 mounted police.

The fanatics were addressed by the officials and were told that they would have to go home.

They cried: "No, we go to seek Jesus." Zilbroff, their leader, harangued his followers, instructing them not to resist.

Farmers Aid the Police
Two hundred farmers who gathered at the train to see them and 500 hundred other citizens surrounded them and offered assistance to the police. Fifty of the fanatics got out and made a rush on the road to go east. Surrounded by the crowd they resisted desperately and the police grappled with the leaders and carried them bodily to the cars.

Zilbroff had to be taken to the cars, 500 yards from the rink to the wagon, and when the rink vomited forth the fanatics an indescribable scene followed. Farmers, town people, and police threw themselves on the Doukhobors and dragged or carried them to the station. The latter encircled each other with their arms and seemed linked together as by bands of steel. While they struggled they gave voice to their weird chant.

Some struggled so hard that their clothing was literally torn from their backs. For over an hour the ground to the station was filled with screaming crowds and excitement was intense, like as though two fierce football scrimmages were going on at one time.

Doukhobors Refuse to Strike
The Doukhobors refused to strike but struggled blindly for freedom. Their captors, with blood warmed to hot heat by the strange struggle, shouted and cursed as the bloodless battle became more exciting.

At the cars stalwart police handed up the kicking Russians, who were thrust into dark, cold coaches like cattle, and the foreigners threw themselves against windows and doors, barred to prevent escape, and confusion followed. During the enforced entraining of the men a small blizzard sprang up and the weather became intensely cold.

Poor Food
The Doukhobors have been living on wheat and raw oatmeal. Tonight small quantities of bran were thrown to them. Many of them are wrecks, but all protest they will continue their search for the Messiah.

Only about twenty of 500 escaped, and they are out on the prairie where the temperature means death to them. The action taken was on instruction of the federal government, which said the pilgrims must be sent home if they had to be carried.

GAME WARDEN WAS NOT TOO PREVIOUS

Wisconsin Tobacco Reporter Does Not Seem To Be Posted on the Alder Case Facts.

Previousness seems to be an epidemic infesting the whole drove of game wardens roaming over the state. The unlimited license bestowed upon their office in many instances makes them most obnoxious officials. Recently one of this class made a trip up to Koshkonong and in his eagerness to do something to earn his salary, carried away seventy decoy ducks belonging to Al. Alder. Mr. Alder is not up to Koshkonong to break the laws of Wisconsin and when he anchors decoy ducks you can gamble on it that they are within the limits prescribed by law. The proper authorities were immediately notified of the action of the warden and a thorough investigation was made. The result was that Mr. Alder's ducks were returned together with an apology from the much too previous official.—Wisconsin Tobacco Reporter.

According to Captain C. W. Johnson, the warden that cut Mr. Alder's decoys loose from the strings and anchors his reason for doing it was, that Mr. Alder in his eagerness to get his decoys set in a favorable place far out in the lake had planted a bunch of rushes in boxes and nail kegs. He discovered the boxes and kegs and for this reason cut all the decoys loose and took them ashore with the intention of burning them. He also put Alder under arrest. However, after considering the matter he decided not to arrest Alder, and gave him back his decoys. Alder kicked about the loss of the anchors and strings but after coming to Janesville for legal advice decided that he was lucky to get the decoys back even if he lost the strings.

Later in order that all the hunters might have an equal chance, Wardens Johnson and Drafiel went along from place to place, even where there were no rushes growing and stuck stakes showing how far out the decoys might be set. As far as shooting privileges are concerned the hunters on Koshkonong have no kick coming on the warden's this fall.

Cured of Asthma
After 35 years of Suffering.

It will be gratifying to Asthmatic readers to learn that an absolute cure has at last been discovered by Dr. Schiffmann. That the remedy is an effective one cannot be doubted after perusal of such testimony as that of C. W. Van Antwerp, Fulmar, N. Y., who says: "Your remedy (Schiffmann's Asthma Cure) is the best I ever used. I bought a package of our drugist and tried it and one box entirely cured me of Asthma, and I have not had it since. I can now go to bed and sleep all night with perfect comfort, which I have not done before for 35 years and I thank you for the health that I now enjoy. I hope that you will publish this letter, that others may learn of its wonderful virtues."

WE KEEP THE QUALITY UP

The Opening Show.

Wednesday AND

Thursday

Nov. 12 and 13th.

It has been our intention to give a fall opening, but owing to the vast amount of work necessary to get our great fall and winter stock into shape, for ready selling, rush of business etc., we could not get to it earlier—However, not disparaging, although a little late, we have reserved two days, Wednesday and Thursday, Nov.

12th and 13th, for a Formal Opening, and the store will be trimmed throughout, up stairs, and down for the occasion.

It will afford the great public an excellent opportunity to see the store at its best, and also form an idea of the immensity of the stock, its wonderful completeness. We want everybody to feel free to come.

In every city there is a certain proportion of the people who patronize stores in large cities through their catalogues, or visit the stores in person, without trying to find out whether articles can be obtained in the home stores. To such people we extend a special invitation to call and compare notes. Owing to the vast amount of merchandise sold by The Big Store it enables us to buy goods from manufacturers and commission men who sell only to the wholesale trade, or the largest retailers. While our prices may not always be lower than others, in many instances one will find that

ALDERMEN WERE ON THE WARP

SEVERAL KICKS MADE ON ABUSE OF PRIVILEGES.

COUNCIL IN REGULAR SESSION

High School Manual Training Department Presents City with a Mayor's Gavel.

While no business of great importance was transacted at the meeting of the common council last evening it was a lively session and several matters of interest to the city were taken up and given a thorough going over. Several of the aldermen were in fighting mood and expressed themselves freely in regard to certain abuses practiced by the Janesville Street Electric Light company, the Chicago, Milwaukee & St. Paul railroad company. A determined stand was taken by the aldermen in regard to the questions raised and steps will be taken to see that there is a change for the better.

Mayor Richardson presided at the meeting, all the aldermen being present, except Alderman Murray. Two minutes of a number of meetings were read by Clerk Badger and approved. The city treasurer's report for the month of October and the municipal court report for the same month were presented and referred to their proper committees, who later reported them correct and they were placed on file.

A notice of injury to August Mallwitz was presented and referred to the judiciary committee, who asked for more time to report, which was granted. The bonds of J. H. Watson and C. H. Allen for saloon licenses were referred to the judiciary committee and later accepted. The application of M. M. Fardy for the transfer of the saloon license held by him to C. H. Allen was granted.

The appointment of George Phillips as a special policeman about the city hall was confirmed. Before proceeding with the other business Mayor Richardson announced that Prof. H. C. Buell was present and wished to address the council.

Prof. Buell presented to the mayor and the city a handsome gavel, which was made in the manual training department of the high school. The gavel is a fine piece of work and speaks well for the training given in the public schools. It is formed from six different kinds of wood, birch, black walnut, bird's eye maple, cocobolo, holly and mahogany, and shows great proficiency on the part of George Simmons, the young man who made it.

Prof. Buell also called the attention of the council to this department of the public schools. He stated that 64 boys were taking the manual training course, many of whom he was satisfied would not be in school if it were not for this department.

Mayor Richardson accepted the gavel in behalf of the city and thanked the manual training class for the same, and especially thanked George Simmons, the young man who did the work. The finance committee presented a batch of bills and the clerk was ordered to draw orders on the city treasurer to pay the same. The clerk was instructed to draw orders for \$511.02 from the judgment fund to pay note No. 58, \$4,056.72 to pay note No. 60, and \$5,672 in favor of the Merchants and Mechanics' bank to pay a judgment against the city.

The finance committee reported that E. A. Hyde had checked up the city treasurer's books and found them correct. The report was placed on file in the treasurer's office.

The judiciary committee reported that no action had yet been taken with the county in regard to the rent of the municipal court room but that they would fix it up this week.

The highway committee introduced an order for the payment to Brown & Connors of \$722.09 for the improvement of Court street and of \$2,333.72 and \$650.05 for the improvement of South Jackson street, also for the payment of \$62.69 and \$814.80 to P. W. Ryan for the grading of North First street. The highway committee reported that the time, the case of the city against the Janesville Street Railway Co., was extended for, expired Tuesday and asked that a further adjournment be granted them.

Alderman Hutchinson objected on the ground that they had already had time enough to complete the work.

Alderman Gilkey addressed the council in regard to the condition of the streets along the tracks when the company got through with their work, especially on South Main street and the brick pavement on West Milwaukee street. The work on the macadam streets was "bum" and the company should be made to put new bricks down where they took them up and broke them, in their work in the brick pavement. The street commissioner was notified to get after the company and see that the bricks were put back in good shape and the work on the macadam streets finished up in a satisfactory manner.

Alderman Rice took up the matter of car fenders. He said an ordinance was passed some time ago in regard to the company putting on satisfactory fenders. The ones on the old cars were all right but those on the new cars were no good at all and were not even pulled out from under the cars the most of the time.

Alderman Gilkey said it was about all the city could expect from such a car line. It was no good anyway and he expected to see some of the old cars break in two some day. He thought the newspapers might find it profitable to go after the car company once in a while and give the council a little peace. The controversy was finally settled by the appointment of Alderman Mills as a committee of one to see that the fenders were made satisfactory.

The city clerk was instructed to draw an order for \$120 in favor of Fayette Bump for a strip of land 25 1-4

feet wide to be used in widening Linden avenue.

Alderman Rice stated they were having some trouble with the property owners along the race in regard to the sewer but thought the matter could be settled. It was left to Ald. Rice and the city attorney.

Alderman Hutchinson took a crack at the Janesville Electric company in regard to the way that they were running the city lights. He said there was hardly a night passed that there was not from one to ten lights out at different times during the night in the various portions of the city. The company should be made to live up to their contract or have the amount of this deducted from the city payments.

Alderman Judd, chairman of the lighting committee stated that he had made numerous complaints to the company, but that it did no good. The only way was to have the light inspector keep a record and deduct the amount of loss from their pay.

Alderman Hutchinson brought up the matter of election booths. There were no voting booths in some precincts, especially in the Fourth and Second wards. The city paid \$20 for a place to vote in the first precinct of the Fourth ward. A committee consisting of Hutchinson, Lowell and Hemming were appointed by the mayor to attend to the matter. The city marshal was ordered to notify the owners of the property on the southeast corner of North Jackson and Wall streets to remove the stairway that extended into the street within three days. Orders for several brick cross-walks were presented and the walks ordered built.

Alderman Hutchinson stated that the ice men and others who had occasion to use North Main street complained that it was almost impossible to get up and down the street. His Honor had a number of piles of material used in the construction of his building in the street and the balance of the road was taken up by cars belonging to the Chicago, Milwaukee & St. Paul railway. He understood that the St. Paul company agreed to keep their cars off the street and store them on their property if they were allowed to cross Prospect avenue.

Now that they have the crossing they seem to have forgotten their promise. Alderman Hutchinson was appointed a committee of one to attend to this and see that the street was not blocked by cars.

Alderman Hemming introduced an order for the improvement of First street in the Fourth ward. He stated that Chauncey Millmore had offered to furnish the rubble for the improvement free of charge the only expense being for hauling. He wished the Fourth ward to pay half of the expense and the balance to come out of the general fund. This was objected to by the other aldermen. A motion that the ward be allowed to fix the street and pay for it out of the Fourth ward fund was carried.

Alderman Rice stated that the St. Paul company in switching on North River street continually ran cars off the end of their track near Milwaukee street and were ruining the block pavement. Some day they would put a car clean across Milwaukee street. The street commissioner was notified to get after the company.

The Associated Charities were granted permission to use the council chambers for their weekly meetings. Mayor Richardson announced that L. R. Treat had a portrait of his father, who was one time a mayor of the city, that he wished to present to the city. The council accepted Mr. Treat's offer and a committee consisting of Aldermen Mills, Rice and McLean were appointed to see if they could secure pictures of other mayors. On motion the council adjourned.

KINODROME GIVES GREAT PLEASURE

Moving Pictures Attract a Large Audience—Give a Pleasing Entertainment at Opera House.

Those who attended the Kinodrome entertainment at the opera house last evening and there were a good number of them—were well pleased with the moving pictures which were presented. The views were well chosen, embracing everything from Jack and the Beanstalk, to the Coronation of King Edward, and Foxy Grandpa. The details of the pictures are fairly distinct as moving pictures go and the blur was reduced to the minimum. A pianist furnished a musical accompaniment during the entire evening, allowing Mount Pelée to erupt to the inspiring strains of a waltz, and a French danseuse to prouette to the inspiring strains of rag time. His playing was neither good enough or poor enough to detract much attention from the pictures which were being thrown on the canvas.

The Kinodrome remains in the city two nights longer. A complete change of views each evening is promised by the management.

LIMA

Lima, Nov. 11.—Mrs. Cowles is with her daughter in Whitewater. Irene Goffrey and a friend spent Sunday as guests of Miss Nina Lowe.

Mr. and Mrs. Reese attended the funeral of their brother-in-law, G. M. Chandler, in Johnstown, Friday.

Mr. and Mrs. Amos Gould of Whitewater spent Friday in Lima, taking dinner with Fred Gould and family. Quarantine was raised from the Harris home on Tuesday.

Mr. and Mrs. Charles Stevens were late visitors at Melvin Knowles'. Mr. McComb and family spent Sunday at Six Corners.

Mrs. Hannah Knowles visited at the Rock county poor farm on Saturday.

Mrs. David Collins is in South Lima helping care for her sister, Mrs. Elphick and three children who are all quite low with pneumonia.

Archibald Woodstock has entered the dairy school at Madison for the coming term.

Paralysis

Case No. 2.—Little Russell, aged 2, from Florence Crittenden Home; Miss Thomas, matron. Last fall he fell out of the door, down the steps, and in a few days became paralyzed in one leg. The doctors treated him for rheumatism for a short time, but told the mother that nothing could be done for the child. A lady in the city, whose child I had helped so much of a similar condition, asked me if I would treat the child, explaining the circumstances. I said that I could help it and would be glad to give my services. Accordingly, Miss Thomas brought the child to me in February. After six weeks' treatment I discharged the case entirely cured. It was walking everywhere, something it had not done since the injury. I have treated a number of similar cases recently, but never saw such rapid improvement. I attribute it to the fact that the child had not been injured with strychnine and arsenic—remedies almost invariably given to that class of cases, and which do as much good as to whip a dead dog, no more. I found the injury to be in the lumbar region, and consisted of a tightened condition of the muscles, which affected the cord.

Comment—I notice these cases nearly always happen in the summer time. They often follow fever or some bowel trouble. The old fashioned doctors say the fever settled in the legs. It has always been a mystery to me how fever can settle. Did you ever try to define fever? Have you consulted the medical dictionary? And after you had, could you then explain how fever could settle? Suppose we say the quinine settled there. I believe that would sound better. I saw a man once who had lumbago. He told me that once before when he had an attack the doctor gave him a big dose of strychnine, and his legs were paralyzed for a while. Now, would you say that the lumbago settled there, or the strychnine? And if the strychnine will paralyze a man, can't quinine paralyze a child—especially if there has been a weakened condition of the cord before the attack?

TIGERS KILL OVER A THOUSAND

Snakes and Wild Animals Cause Many Deaths in India.

London, Nov. 11.—The returns of deaths from wild animals and snakes from India during the last twelve months show an increase of about 2 per cent in the number of deaths from snake bites over those of the previous year. The increase in deaths caused by wild animals is much greater, exceeding the previous year's record by nearly 25 per cent. Tigers are the principal offenders, having killed 1,171 persons.

HYSTERIA CAUSES DEATH SLEEP

New York Girl's Trance Said to Be Due to Self Hypnotism.

New York, Nov. 11.—Details concerning the autopsy performed on the body of Nellie Corcoran, the 19-year-old girl who died after a trance of twenty days, are interpreted as confirming the theory that her condition was due to hysteria. No sign of disease was found in any organ. The physicians believe the girl's original sleep was caused by self-hypnotism and that hysteria followed.

Shooting Fatalities.

Ottumwa, Ia., Nov. 11.—Frank Perkins, aged 17; Asa Noe, 20, and J. Fothergill, aged 30, accidentally shot themselves while hunting. Perkins is dead, and the other two are in a serious condition.

BRITISH STEAMER IS WRECKED

Ninety-Six of Those on Board the Vessel are Missing.

Melbourne, Nov. 11.—The British steamer Ellingamite, bound from Sydney, N. S. W., for Auckland, has been wrecked on Three Kings Islands. Forty-one of those on board the steamer were saved and ninety-six are missing. The Ellingamite belonged to Huddart-Barker & Co. of Melbourne. It was used in the general passenger and mail service between the colonies and along the coast of Australia. It was built in 1887 at Newcastle-on-Tyne and was of 1,675 tons net register, 310 feet long, 40 feet wide and 19 feet deep. Three Kings Islands comprise a group of small islands thirty-eight miles northwest of New Zealand.

OVERLOOKS PROMISE IN WILL

Francis Palmer Agreed to Give \$100,000 to University at Muncie.

Muncie, Ind., Nov. 11.—Dr. L. D. McQuinney, chancellor of Palmer university, gives out information that while he was in New York last summer the late Francis Palmer contracted with him to donate \$100,000 to Muncie college, provided another \$100,000 was raised by the college officials. This contract was placed in writing. Dr. McQuinney was asked to be chancellor of the college and name it after the donor. The conditions have been fulfilled and McQuinney is preparing to present his claim for \$100,000. This donation was not mentioned in Mr. Palmer's will, but will be contested for if necessary by Mr. McQuinney, who was a lifelong friend of Mr. Palmer and preached his funeral sermon.

OLEO LAW IS HELD TO BE VALID

Federal Supreme Court Evenly Divided on New Hampshire Case.

Washington, Nov. 11.—By a divided court the United States supreme court affirmed the decision of the supreme court of the state of New Hampshire in the case of Clarence E. Collins versus that state. The case involved the constitutionality of the New Hampshire state law requiring oleomargarine to be given a color different from the color of butter or to be labeled. The validity of the law was sustained by the court below and the effect of the action of the federal supreme court is to validate that opinion, notwithstanding the court was evenly divided.

Exposition of Hygiene.

Washington, Nov. 11.—The state department has received notice from the Argentine legation at Washington of an international exposition of hygiene to be held at Buenos Ayres in connection with the Latin-American medical congress. The opening session will be held in April, 1904.

New York Temple of Labor.

New York, Nov. 11.—Certain wealthy men are considering the plan of erecting a large building, fitted for meeting rooms for labor organizations. The plan is to include the erection of a temple of labor.

Indianapolis, Ind., Nov. 11.—United States Senator Beveridge and retiring United States Judge Baker, it is reported, will form a law partnership.

Fire! Fire!!

When that cry sounds how people rush to help and sympathize! And when some fireman rescues a woman from the flames, the streets echo with applauding shouts.

And yet it is that woman had perished in the flames it is possible that she would have suffered less than she suffers almost daily from the inflammation which disease has lighted in the delicate womanly organism.

That fire of inflammation can be put out. The gnawing ulcer can be cured. Dr. Pierce's Favorite Prescription not only establishes womanly regularity and dries enfeebling drains, but it heals inflammation and ulcerations and cures female weakness. It makes weak women strong and sick women well.

"I suffered for four years with what four physicians pronounced ulceration and prolapse of the uterus," writes Mrs. Ada Brooks, of Kirbyville, Taney Co., Missouri. "Also inflammation of bladder and urethra. My case was chronic and complicated. Had several good physicians, but kept getting worse. Had been confined to my bed five months when I wrote to you. I received your reply very soon and then I dismissed my physician and began taking Dr. Pierce's medicine. I took eight bottles of his Favorite Prescription and Golden Medical Discovery, and began to get better at once. In two months I could sit up in a chair, and kept getting better. The pain never disappeared and does not require soaking in water before using. There is never any waste. It is good to the last pinch. It is gently sifted on the stove, brushed with a damp cloth and lightly rubbed with a dry cloth. A brilliant, jet black lustre is obtained. There is no odor, no dirty soaps or rust, no rusty boxes to cover. The Sifter box is always clean. Sifter Stove Polish is cheap. It costs 5 cents a box, will polish more stoves than three times its cost in any other polish. All dealers.

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Easy to Polish a Stove.

Easily Applied—No Odor—No Dirt. To polish a stove like papering a beefsteak may seem odd to those who have never used Sifter Stove Polish, but nevertheless, it is the newest, easiest and most convenient method known. Sifter Stove Polish is put up in a large, round box with a perforated top similar to a pepper box. The polish never dries out and does not require soaking in water before using. There is never any waste. It is good to the last pinch. It is gently sifted on the stove, brushed with a damp cloth and lightly rubbed with a dry cloth. A brilliant, jet black lustre is obtained. There is no odor, no dirty soaps or rust, no rusty boxes to cover. The Sifter box is always clean. Sifter Stove Polish is cheap. It costs 5 cents a box, will polish more stoves than three times its cost in any other polish. All dealers.

COUNTY BOARD IS IN SESSION

NOVEMBER MEETING OF SUPERVISORS HELD TODAY.

LITTLE BUSINESS TRANSACTED

General Routine is All That is Taken Up Thus Far in the Session.

The annual November session of the Rock county board of supervisors was called to order at 2:15 o'clock this afternoon by Chairman Alexander White.

The roll-call showed all the members present except Supervisors Baker, Campbell, Grove and Nelson. Clerk Starr read a report from the village clerk of Orfordville notifying him of the appointment of S. O. O'neal as a member of the board in place of T. P. Thoen, also one from the town of Fulton notifying him of the appointment of J. O. Arthur in the place of M. E. Conway. The gentlemen were declared entitled to seats on the board.

Unfinished Business
Under the head of unfinished business the report of committee No. 1, on illegal taxes, laid over from the May meeting was taken up and \$21.60 ordered refunded to the Janesville Electric company for excessive tax on their line through the town of Janesville.

The sum of \$150 was appropriated by the board to pay the surety bond of Miles Rice, county treasurer. Under the new ruling where the county gets interest on its funds the banks who formerly furnished the bonds no longer do so, and the county officers furnish their own bonds.

SECOND LECTURE FOR MONDAY CLUB

Miss Louise P. Kellogg, Gave an Interesting Talk Last Evening.

Miss Louise P. Kellogg, of the University of Wisconsin, lectured last evening before the Monday club on the influences which made Italy the home of the Renaissance. A large number were present at the meeting which was held in the parlors of the Congregational church. The subject was handled in an original style, and brought out many interesting facts regarding the movement. At the meeting last evening it was possible to find out definitely how the club stood financially, and the members were greatly encouraged to learn that all expenses will be met easily, and that there will probably be a surplus remaining in the treasury.

MR. JOLLY OF JOLIET.
Old Maids And Others Come in For Their Share of Abuse

"I never seen two men folks get together yet, but they didn't take up some old maid and sympathize with her for not having the luck to get married. Makes 'em feel considerable more complacent themselves a picture' how miserable and destitute she is without 'em," says Aunt Abigail, the old maid in "Sweet Clover." However that may be, there are old maids and old maids but the one who has succeeded in provoking more laughter than any heretofore played by anyone on the stage is the impersonation of the character by Ada Beaves in the musical comedy, "Mr. Jolly of Joliet" by Chas. Newman, in which Edward Garrie is starring. Mr. Newman's characters are well drawn in a satirical vein which has never been approached by any other author with the possible exception of the late Chas. Hoyt and the old maid impersonated by Miss Beaves is one of the most broadly humorous and ludicrous characters he has yet conceived. At opera house on Friday night.

TIM MURPHY

Famous Old Actor Tells About The Play "Old Innocence."

In reply to a manager who recently asked him why he was bringing out new plays each year while there was still a great demand for "Old Innocence," Tim Murphy said: "I do not wish to become identified with one part and besides I look upon 'Old Innocence,' as ready capital—or so much cash in hand. Like all actors who are starring I am never sure that a new play will prove a success. It may read beautifully and its author well known and although carefully rehearsed and expensively staged it may fail to please the public. So far I have been lucky, but if this state of affairs should come about, I can put 'Old Innocence' out at short notice and could fill out an entire season both to my own and my manager's satisfaction. It is a valuable piece of property and my tour this season is in reality to fill promises I have made to managers whose patrons have been asking for it." Mr. Murphy's appearance in this city will be at the Myers Grand on Thursday night.

School Opens Tomorrow

Tomorrow morning the Standard Garment Cutting School will open in the new Jackson building. In the store adjoining the Rock County National bank, at 5 o'clock. The announcement that appears in this evening's issue of the Gazette on page 8 should prove of special interest to every woman in Rock county. The standard system is highly recommended in all portions of the country. Mrs. Laird, the promoter, comes to Janesville highly recommended and there is every reason to believe that the Standard school will receive a most hearty approval here.

The silk bargain sale of the year is the one now in force at Bort, Bailey & Co's. store. Fancy silks worth all the way up from \$1 to \$1.50 per yard will be closed out at the one price of 50 cents.

On tomorrow evening at the Congregational church there opens one of the finest lecture courses ever offered the Janesville public. The opening attraction is the Milwaukee Lyric Glee club headed by Prof. FrothZore, the well-known director and composer.

The public should, as far as possible secure their tickets for the Peoples' Lecture course during the day or tomorrow at one of the various drug, book or jewelry stores and thus avoid delay and inconvenience at the door.

Fancy silks worth as high as \$1.50 per yard for 50 cents is the latest offering by the dry goods firm of Bort, Bailey & Co. Not one pattern in the whole assortment that is worth less than \$1 per yard.

When you make the purchase for 50 cents per yard of high grade silks that retail at from \$1 to \$1.50 it is an opportunity that no woman should miss. Such a sale is now in force at Bort, Bailey & Co's. store.

MACADAM WORK

Wall Street is Nearly Completed And Others Are Underway

Brown & Connors have the macadam work on Wall street between Academy and Marion streets practically completed. The last coating of fine stone was put on yesterday and the steam roller is at work there today rolling it down in shape. They have the balance of Wall street and High street ready for the stone and will begin hauling from the crusher today.

YIELD OF SUGAR BEETS IS LARGE

RESULTS PROVE EXPERIMENTAL CROP A SUCCESS.

MORE ACRES TO BE PLANTED

Sample of Sugar Made from the Beets is Exhibited at Walter Helms' Store.

Walter Helms has on exhibition at his store a sample of beet sugar from the Wisconsin Sugar company. The Wisconsin Sugar company is the concern to which the growers of sugar beets in this locality send their product. To the general observer there is no appreciable difference in appearance or taste between the commercial product and this.

Will Receive Money
Now that the season is practically ended it is possible to form a general estimate of the result of the experimental work that has been done in this locality. On the 15th of the month the company will settle all bills with the shippers, and at that time the season can be said to have been brought to an end. But with that exception the work has already been ended.

Well Satisfied

Every farmer who raised sugar beets on his farm this year, for shipping purposes, is thoroughly satisfied with the experiment. The yield has been from fifty to seventy-five tons an acre, and the price to be paid per acre is between sixty and one hundred dollars. About thirty dollars an acre covers the cost of growing, and this leaves a net profit of from thirty to seventy dollars an acre.

More Next Year

"One man who raised a single acre this year says that he will put in twenty next. All indications point to an increase, if not so great as that, in the amount of land cultivated for this purpose next year. Several who did not raise the beets for sugar purposes this year, watched the success of their neighbors and have made known their intention of going into the business next year."

Quantity Shipped

It is difficult to tell the exact amount of beets which has been shipped from this region. A quantity has been loaded on the cars at Avalon and some at Milton, but a man who has been prominently identified with the project from the outset places the total at between twenty and twenty-five carloads.

W. R. C. CONVENTION ATTENDED BY MANY

Mrs. Ada P. Kimberley Presided at the District Convention Held at Brodhead.

Mrs. Ada P. Kimberley, returned home yesterday from Brodhead where she has been visiting friends for several days. Mrs. Kimberley, who is department senior vice president of the Woman's Relief Corps, went to Brodhead last Friday to take charge of the sixth annual district W. R. C. convention which met in that city.

W. H. Sargent W. R. C., No. 21, of this city, was represented at the convention by fourteen of its members. There were eighty-three ladies present at the sessions, the Relief Corps of Beloit, Brodhead, Janesville and Monroe being represented by large delegations.

During the convention the following resolutions were adopted upon the recent death of Miss Winifred Charlton, of Brodhead, Wis., who was well known in this city:

Whereas, the Angel of Death has again cast its shadow over the home of our beloved Past Department President, Sister Helen Holmes Charlton, hearing away from the widowed mother her only child, her gifted and lovely daughter, Winifred.

Therefore be it resolved, that this convention extend to her in this hour of her desolation and great sorrow, our most tender and heartfelt sympathies.

Resolved, as a further token of respect, that these resolutions be spread upon the minutes of the convention and that the secretary be instructed to furnish copies for publication to the local papers of Brodhead, the Janesville Gazette, the Monroe Sentinel and the Beloit Free Press. And also that a copy be furnished to Sister Charlton.

BLIZZARD THAT FAILED TO COME

Was Sidetracked Somewhere, To Let a Through Train of Rain Pass By?

There really was a blizzard out west and it was reported as coming east on Saturday last. It was really a first-class blizzard that all reports had named as a rip-roarer that was guaranteed to make people remember that coal was up and last winter's overcoats were badly worn. Of course everyone made ready for it and the amount of wood that was split through out the city and the coal hustled in from the adjoining woodsheds to be handy, was amazing. Then the blizzard did not come. Of course no one was disappointed except it be the boy who cut the wood or brought in the coal and he feels as though the weather man had played a mean trick on him.

Bagpipes Not Scotch.

It is said that the only thing Scotch in a set of bagpipes is the sheepskin and tartan. The wood—ebony or cocus—comes from Africa or Jamaica, the ivory from Africa, the horn from Australia, and the cane for the reed from Spain.

NEWS OF A PERSONAL NATURE

T. S. Nolan was in Chicago yesterday on legal business.

Mr. and Mrs. C. W. Story of Chicago are visiting friends in this city. Mr. and Mrs. Herbert Skipper have welcomed a baby boy to their home. Gordon D. Simonds of Milwaukee spent Sunday with his family in this city.

Mrs. W. C. English returned last evening from a visit with her parents in Chicago.

C. E. Stevenson and wife of Chicago are visiting Mrs. Stevenson's mother, Mrs. G. M. Dopp.

H. W. Child of Edgerton is in the city and is looking over the tobacco crops in this vicinity.

Mr. and Mrs. Byron Jones of Ravenswood, Ill., have been visiting at the home of S. M. Fisher.

Louis Viegand has for several days past been entertaining his mother and sister from Watertown.

Mrs. Victoria Potter was called to Edgerton yesterday to attend her mother, who fell and seriously injured her shoulder.

Mrs. Janette Holmes will entertain the Main Street Whist club this evening at the home of her daughter, Mrs. W. H. Judd.

Michael Buob is seriously ill at his home. He has been confined to his room for two weeks past, and is still in a critical condition.

Miss Lizzie Hession, living near the city limits, fell from a wagon yesterday afternoon and fractured her left arm near the wrist. Dr. E. F. Woods attended her.

Mrs. H. A. Murock spent last week visiting in Evanston, Ill., the guest of her granddaughter, Mrs. Ada Kimberley Curry.

"PRINCE OF DREAMS" COMING NEXT WEEK

Edward Corrigan Will Present a New Play Written by a Chicago Journalist.

Charles P. Salisbury, former manager of the Salisbury Stock company which played at the Davidson theater, Milwaukee, was in the city today, representing Edward Corrigan, who is to appear at the Myers Grand on Thursday evening, Nov. 30, in "The Prince of Dreams." The play is from the pen of Walter Hackett, a Chicago newspaper man, and is entirely new. It's first presentation will be given at Sterling, Ill., on Friday evening. Mr. Corrigan will be remembered with pleasure by many who saw him in "Ben Hur," either in the T. J. role or in the character part of Simonides. He is supported by the Players Stock company which goes into the new Bush Temple of Music in Chicago in the near future.

TO THE PUBLIC

New Directory is Complete And Should Not Be Misrepresented

To the Public:—In an item which appeared in the morning paper the public was led to believe that the new directory, published by me was not complete. An investigation of the origin of the story shows that this report was started by persons who are about to publish a directory of their own and is not correct.

The book I have just published has the census of the city in its complete form as far as possible. Five persons were employed for upwards of four weeks compiling the information necessary. Every precaution was made against error and I believe the work will compare favorably with any the city has ever had.

As to names and addresses my book has as many as the old ones and also has the advantage of having all the changes of residence and the new arrivals in the city since the last book was published.

It should be remembered that I am only asking \$1 for this directory—the first book that has sold in Janesville for less than \$3—this fact of course tends to hurt the cause of the competitor.

EDGAR E. BULLOCK.

CITY NEWS NOTES

DENISON CUP IS WON AND LOST

FORTUNE OF SOPHOMORES AND SENIORS DECIDED TODAY.

BOTH TEAMS READY FOR GAME

Held Good Practice Monday—Interest Running High—Who Will Play in the Game.

At the last moment it was decided to play the final game in the Denison cup series, which was to have been contested on Wednesday afternoon at Athletic park this afternoon. For weeks interest in this game has been gradually accumulating, and now it has reached such volumes that, although every Sophomore and every Senior is confident of the result, the excitement will be at fever pitch until the twenty-two members of the competing classes have been tumbled over each other on the gridiron for the last time.

In Good Shape
Yesterday evening both teams held the best practice they have had for many weeks. Only signal practice was indulged in, but the men showed that they were ready to fight the game of their lives, thus far the plays were executed snappily, and with stronger and more machine like interference than they have shown in any of the games this season.

Four o'clock was the hour set for the beginning of the game. Just what the line up will be at that time, it is impossible to tell accurately. Only a few men know, and they are silent. Neither captain is willing to show his hand until the last moment, but it is probable that the men will play in the following formation with one or two exceptions:

SENIORS.	Position	SOPHOMORES.
Jones	center	Glaze
Watson	right guard	Carle
Corbett	left guard	Caldow
Murdoch	right tackle	Stout
Pomeroy	left tackle	McDonald
Palmer	right end	Kent
Leahy	left end	Howell
Dearborn	quarter	Gairbairn
Smith	right half	Fisher
Wilbur	left half	Hutchinson
Casey	full back	Woodward

SHOULD REPAIR WALK

Sidewalks On The Bridge Are In Very Bad Shape

The sidewalks in front of the Jeffris block on the Milwaukee street bridge are in a deplorable condition. There were a number of holes made in the walk when the bridge was repaired to put in the new piles. These holes were covered with planks run lengthwise to the walk and many of them are loose and in a dangerous condition.

Joe Murray was passing along the walk this morning with a large bundle in his arms and caught his toe on one of the loose planks and received a hard fall. Fortunately for the city he was not hurt. Alderman Gilkey was standing near by when the accident occurred and at once notified the owners of the property to put it in repair.

DECORATED ASSEMBLY HALL

Unique Club Will Give Enjoyable Party This Evening

Special elaborate costumes are promised as well as many new features.

DIRECTORS MEET TO HEAR REPORTS

Y. M. C. A. Work is Growing Steadily—Last Evening's Meeting Devoted to Routine Business.

Routine business was the general order at the meeting of the directors of the Young Men's Christian Association which was held at the Y. M. C. A. building last evening. It was the regular monthly session, and was attended by about two-thirds of the entire number of the members of the board.

Reports were heard from the general secretary, the treasurer, the chairman of the social, and physical departments, and other branches of the association work. The general opinion expressed by the reports was that the association is doing a good substantial work, without any splurging or booming, but direct and efficient.

An amendment which has been proposed for some time past, and under discussion, was also brought up, and it is probable that it was talked of for the last time last evening. It was decided that the proposed change was too radical to agree with the policy of the local association in its relation to the national and international departments.

A WAY OPEN.

Many A Janesville Reader Knows It Well

There is a way open to convince the greatest skeptic. Scores of Janesville people have made it possible. The public statement of their experience is proof the like of which has never been produced before in Janesville. Read this case of it given by a citizen:

Mr. John Stetson, of the Hotel Myers day clerk, says: "A physician pronounced my trouble kidney complaint. If the severe pain across the small of my back is any indication of the said complaint. I guess I had it. For two years I suffered with attacks sometimes virulent, sometimes a dull grinding ache, which robbed me of considerable energy. I used in addition to doctor's prescriptions several preparations said to be sure cures for kidney complaint, but until I procured Doan's Kidney Pills at the People's Drug Co.'s drug store, I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date I have not noticed any recurrence of my old trouble."

Sold by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

CORN ECLIPSES

PREVIOUS YIELDS

GREAT GAIN FOR THE MONTH

Surplus States Produce More of the Cereal Than the Entire Crop Amounted to in 1901—Increase for Year Nearly 1,000,000 Bushels.

Washington, Nov. 11.—The largest crop of corn ever raised, according to the department of agriculture's figures, is indicated by its preliminary estimates just given out. The yield of corn per acre is 26.8 bushels per acre, as compared with an average yield of 16.7 bushels in 1901, with 25.3 bushels in 1900 and 18.99, and a ten-year average of 22.4 bushels.

This indicates a yield of 2,550,000,000 bushels, or 286,000,000 bushels more than last year, and 445,000,000 bushels in excess of the crops of 1900. The seven surplus states have 1,712,000,000 bushels, a gain of 178,000,000 bushels over the October returns, more than double last year's.

Tabulated Statements.

The surplus states in detail present the yield as follows:

State	1902	1901	1900
Ohio	122,400,000	80,000,000	102,000,000
Indiana	156,000,000	88,000,000	123,000,000
Illinois	200,000,000	180,000,000	202,000,000
Iowa	224,000,000	220,000,000	206,000,000
Missouri	214,000,000	80,000,000	181,000,000
Kansas	224,000,000	12,000,000	164,000,000
Nebraska	250,000,000	100,000,000	210,000,000

Totals 1,712,000,000 822,000,000 1,550,000,000

The following table shows, for all states having 1,000,000 acres or upward in corn, the preliminary estimates of the average yield per acre in bushels in 1902, with the final estimates for 1901 and 1900 and the mean averages of the last ten years:

States	1902	1901	1900	AV.
Illinois	25.2	21.4	27.0	24.2

Michigan	23.1	21.5	25.0	23.8

General Average.

The general average as to quality is 80.7 per cent, as compared with 73.7 per cent last year, 85.5 per cent in 1900, and 87.2 per cent in 1899.

It is estimated that about 1.9 per cent of the corn crop of 1901 was still in the hands of farmers on Nov. 1, 1902, as compared with 4.5 per cent of the crop of 1900 in farmers' hands on Nov. 1, 1901, and 4.4 per cent of that of 1899 in hands Nov. 1, 1900. These figures indicate holdings of 28,918,000 bushels this year, the lightest on record, compared with 91,725,000 bushels a year ago and 91,432,000 bushels two years ago.

Buckwheat Yield.

The preliminary estimate of the average yield per acre of buckwheat is 18.1 bushels, against 18.6 bushels in 1901, 15 bushels in 1900, and a ten-year average of 17.2 bushels. Of the seven states having 20,000 acres or upward under this product, including New York and Pennsylvania, which together contain about three-fourths of the entire buckwheat acreage of the country, five report a yield per acre in excess of their respective ten-year averages. The general average as to quality is 88.1 per cent, against 93.3 per cent last year and 90.2 per cent in 1900.

Potatoes.

The preliminary estimate of the yield per acre of potatoes is 95.4 bushels, against an average yield per acre of 65.5 bushels in 1901, 80.8 bushels in 1900, and a ten-year average of 75.9 bushels. Of the states having 100,000 acres or upward in potatoes, all except New York and Michigan report a yield per acre considerably above their ten-year averages. The average as to quality is 90.4 per cent, as compared with 78.4 per cent in November last and 88.1 per cent in November, 1900.

Of the eleven principal sweet-potato producing states, six, including Georgia and South Carolina, report average yields per acre of sweet potatoes in excess of their ten-year averages, and five, including North Carolina and Alabama, report yields below such averages.

Increase in Hay.

The preliminary estimate of the average yield per acre of hay is 1.51 tons, against an average yield of 1.28 tons in 1901 and 1900 and a ten-year average of 1.23 tons. The present yield is, with the exception of 1898, the highest ever reported by the Department of Agriculture, and each of the eleven principal hay-producing states reports an average yield in excess of that of last year and also in excess of the ten-year average. The average as to quality is 85.7 per cent, against 91.3 per cent in November last and 89.7 per cent in November, 1900.

All of the ten principal tobacco states, except Pennsylvania, report average yields per acre of tobacco in excess of their ten-year averages. The quality of the tobacco crop is fair.

Fruit Above Average.

The apple and pear crops are considerably above the ten-year averages in nearly all the states in which the raising of these fruits is of any importance, and the grape crop is slightly below such average.

The estimated production of sugar cane in percentages of a full crop is as follows: North Carolina and Texas, 85; Georgia, 84; Louisiana, 82.

South Carolina, 76; Florida 76; Mississippi, 71, and Alabama, 67.

The estimated average yield per acre of rough rice in bushels is as follows: Louisiana, 25.5; North Carolina, 31.6; South Carolina, 23.3; Georgia, 31; Florida, 27; Alabama, 25.2; Mississippi, 10.4, and Texas, 45.

BUTTERINE MAKERS WANT FRIENDLY SUIT

Chicago Man Calls on Mr. Yerkes to Permit Certain Violations to Test Law's Constitutionality.

Washington, Nov. 11.—John Dady, general manager of the William Moxley company of Chicago, visited the office of the commissioner of internal revenue trying to arrange a friendly suit by which will be tested the constitutionality of the oleomargarine law. The law contains provisions not only for sundry \$1,000 fines, but also for the confiscation of the plant of the company which attempts to evade its provisions or defraud the government from the revenue accruing therefrom. These provisions have made the butterine men chary of giving the government a case upon which a test suit might be brought, and Mr. Dady's mission to Washington is to secure the permission of the treasury authorities and violate the law in three different ways, with the promise that, should the court's decision be against the butterine men, the commissioner would not inflict the extreme penalty provided. Commissioner Yerkes after hearing Mr. Dady's proposition said he would have to take it under consideration. Mr. Dady said that all the butterine manufacturers of the country had been invited to participate with the Moxley company in the suit, but all had refused with the exception of the Capital Creamery company at Columbus, O. The suit will be pushed to an early decision by the United States Supreme court.

DOUKHOBORS ARE DETERMINED

Say They Will Continue Search for Master Despite Difficulties.

Winnipeg, Nov. 11.—Another chapter in the Doukhobor pilgrimage began when the government officials started the Swan river contingent on their way home from Yorkton, Wagona were provided for the Doukhobors, and they were told that if they would avail themselves of their chance they might ride, but if they would not accept, owing to religious scruples, they would be compelled to walk. Agent Speers started off with one of the leaders, and the others reluctantly followed. The leaders declared they would not remain in the villages, even if carried there, as they were determined to continue their search for the Master.

OFFER TO QUIT THEIR OFFICES

Sagasta's Cabinet Joins Him in Tendering Portfolios to King.

Madrid, Nov. 11.—Prime Minister Sagasta has tendered the resignation of the entire cabinet to the King. The King declared that the question of accepting the resignations would be settled by asking for a vote of confidence in the Chambers. The Cortes will suspend its sittings until the question is solved. Should the King accord a continuance of his confidence in Premier Sagasta, the Ministry will be modified, and probably the Ministers of War, Marine and Justice will be sacrificed.

YOUTSEY MAKES CONFESSION

Believed That He Has Given Details of Alleged Plot.

Frankfort, Ky., Nov. 11.—Henry E. Youtsey, who is in the penitentiary serving a life sentence for the Goebel murder, has signed a confession, giving the details of the plot, and the confession is in the hands of the state's attorney. This is the information that leaked out here through a guard at the prison and an attorney.

CITIZENS FOIL BANK ROBBERS

Missouri Residents Are in Turn Put to Rout by Desperadoes.

Seymour, Mo., Nov. 11.—Robbers made an unsuccessful attempt to loot the bank of Seymour. They blew open the safe, but while they were working on the inner doors a crowd of citizens appeared. A fusillade from the robbers put the citizens to flight, and the robbers left the bank and ran to the railroad, escaping on a hand car.

BROTHERS DIE ON THE TRACKS

Ferdinand and Carl Loft Are Instantly Killed at Grade Crossing.

Milwaukee, Wis., Nov. 11.—Ferdinand Loft, aged 60, and his brother Carl, aged 49, were instantly killed while driving across the Chicago & Northwestern railroad at Lincoln avenue in this city. They were farmers, who lived half a mile from Caledonia. Matt Gallagher, foreman of the switching crew, was badly injured.

YATES CONTINUES TO IMPROVE

Though at Times Irrational, His Temperature is Lower.

Springfield, Ill., Nov. 11.—Dr. L. C. Taylor states that Gov. Yates is doing very well. He passed a good night, sleeping well, but being irrational in speech at times. His temperature was 100, which is the lowest since he was taken ill, and his pulse was 96. He was rational when Dr. Taylor called.

Constipation Makes Bad Blood.

MULL'S GRAPE TONIC CURES CONSTIPATION

Constipation is the rotting and decaying of undigested food in the alimentary canal. Disease germs arise from this festering mass, which find their way into the blood. The blood becomes impure and shortly the entire system gives way to the unhealthy condition.

You cannot cure a case like this by taking pills or other common cathartics. A laxative will not do. A blood medicine is ineffective. Mull's Grape Tonic is a gentle and mild laxative in addition to being a blood-making and strengthening tonic which immediately builds up the wasted body and makes rich, red blood that carries its health-giving strength to every tissue at every heart beat.

Mull's Grape Tonic is made of pure crushed fruit juices and is sold under a positive guarantee.

Doctors prescribe it. All druggists sell it at 50 cents a bottle. Send 10c to Lightning Medicine Co., Rock Island, Ill., to cover postage on large sample bottle.

Missionary Secretary Dies.

Boston, Nov. 11.—Miss Abbie B. Child, home secretary of the Woman's Board of Missions (Congregational), died suddenly of heart disease at her home here.

Not long ago a trial was reported where a man sued a medicine concern which had offered \$100 for a case their remedy could not cure. The man had taken the remedy but had not been cured. The defence was that he had not taken the medicine long enough. He did not get the \$100.

We allude to this because we want to show that Vinol does not give a slippery guarantee. If the user comes back with his empty bottle and says, "I can't see that it did me any good," we say, "Sorry you happen to be among the few—less than two in one hundred—here's your dollar!"

Vinol is a non-secret pleasant compound of cod liver oil, (greatest medicinal food known), iron, and mild table wine.

will be given to all who are
interested in the Standard
System

Positions Secured Graduates.

EVERY Woman in Rock county should be interested as a pupil in The Standard Square Inch Tailor System of Dress Cutting School which opens tomorrow morning at 9 o'clock in the Jackman building, adjoining the Rock County Bank. The system comes highly endorsed by the leading dressmakers, both in Europe and America. This spacious store room has been remodeled throughout and has been leased for one year. Thus you can plainly see that the opening of a Standard school in Janesville simply means that such a school is here to stay as it is today in many cities throughout the United States. The school is graded as is any school. Correct measurements and plain sewing soon leads into perfect cutting and fancy work. Every branch is thoroughly taught. In fact your tuition costs you no more for one year than it does for one month. We have thousands of testimonials from other states and will furnish them on application. Following are just a few of those who are well known in this part of the country, and would be glad to have you write to any of them.

Shullsburg, Wis., September 1, 1902.

Dear Madam: When I entered the Standard dress cutting school I wanted to learn to cut and fit so I could do my own sewing. After I was in school one week I liked the work so well that I decided that I would like to have a school of my own and I am glad that I can now say that I have a territory of my own. The most striking and valuable feature of this system is that the method is simple and easy to learn and that it insures a perfect fit for every individual figure. I can heartily recommend the Standard Square Inch Tailor System.

Standard System

Assures Independent Living.

NO stenographer or bookkeeper in Janesville can be as independent as the graduate from the Standard Square Inch Tailor System of Dress Cutting School. Good dressmakers are today in great demand in every city in the country and at high wages. We secure you good positions and now have any number of places, both in the cities and small towns, to be filled. Provided you don't care to enter the professional ranks, the Standard System is invaluable to every woman who believes in economy. You have nothing to furnish in attending our school. We provide everything in the way of material, so that you are put to no expense in this respect. The Standard is the latest improved tailor system of dress cutting in the world, and embodies all of the very best principles known to the dress cutting art. It is founded on strictly square inch measurement, and cuts every garment worn by the human family. It is neither a chart model nor a scale system, but a perfect square and compass combined, giving actual inches, and all the curves requisite in making perfect fitting garments. Following are a few of the many testimonials:

New Diggins, Wis., August 4, 1902.

Dear Mrs. Laird: Having completed a course of instruction in the Standard Garment Cutting Co. school I find it just as represented. The system is easily mastered. I heartily recommend your good work. It's worth double the amount of tuition.

REV. MRS. J. R. LINDSEY.

Benton, Wis., September 1, 1902.

Dear Mrs. Laird: Words cannot half express how delighted I am with my new work. Two months here has resulted in 23 scholars as well as the sale of valuable territory. Indications are that business will be twice as good in the next two months. The work advertises itself. For any lady the work is clean, healthy, and most honorable.

DAMAGE WILL REACH \$1,500,000

Five Men Said to Have Lost Their Lives in the Flames—Fire Apparatus Proves of Little Use, Owing to Location.

New York, Nov. 11.—Fire damaged the new East River bridge to the extent of about \$1,500,000, and five men are supposed to have been thrown into the river and drowned.

Two of the four great main cables destined to sustain the weight of the structure, it is feared, have been so seriously impaired by heat that they may have to be replaced. Each of these main cables is eighteen and a quarter inches in diameter and consists of 7,696 steel strands, the thickness of each of which is three-sixteenths of an inch. The total value of the four main cables is \$1,200,000. The two which are supposed to be seriously damaged cannot be replaced for less than \$600,000.

Spectacular Blaze.

As a spectacle the fire was one of the most remarkable ever witnessed in or around New York. Starting at a point 200 feet higher than water could reach effectively, it spread along the wooden footway and out over the East River, like a festoon of fire. Finally the foot bridges parted in the middle, deluging under red-hot steel bolts and blazing planks the decks and superstructure of half a dozen river craft. For two hours river traffic was practically suspended.

Five men, all of whom were employed upon the bridge, are missing and are believed to have perished. Many of the firemen, who worked under conditions that taxed the heroism of the bravest men, had narrow escapes from death, but so far as known only one, a fireman on the fireboat, William L. Strong, was seriously hurt.

Fire Warps Steel Works.

The intense heat from the fire has so warped and otherwise damaged much of the steel work that it is feared it will have to be taken out and replaced.

It was close to 5 o'clock when Peter Dinno, a clerk from a lumber company at Thompsons and Delancy streets, discovered a burning brand rapidly growing into a blaze 330 feet above him on the very apex of the steel structure supporting the Manhattan end of the bridge. Dinno was seated in the office of the lumber company when the flickering light attracted his attention. At first he mistook it for one of the regular lights of the workmen, but as he watched it the light grew from a twinkling star into a blazing brand. Then Dinno realized what had happened and turned in an alarm.

Oil Explodes.

By the time the firemen arrived at the foot of the towering structure, its

top was crowned with a coronet of fire. A large frame structure which had been built on its summit was all ablaze. One of the small forges used in heating the steel bolts had been carelessly left with its fire smoldering. It had ignited the woodwork near by, and then an explosion of several gallons of oil stored there had spread the blaze throughout the whole of the flimsy structure.

One glance aloft was enough to daunt the stoutest fire fighter. To get water to that tremendous altitude was a physical impossibility. No stream from fireboat or engine could hope to reach more than half way to where the fire was now roaring at the top of the tower, and already cables, bolts and girders of the great steel network were beginning to glow russet red under its touch.

Footbridge Falls.

Before 6 o'clock the wooden footbridge, hanging like a loop from shore to shore on the south side of the four big cables, had become a festoon of fire. With a final rush of flame it parted near the center and fell, scattering a hurricane of blazing twelve-inch planks, pieces of half-burned timbers and 300-pound steel bolts upon the river and at the base of either tower. Less than forty minutes later the footbridge and false work spanning the stream at the north side of the large cables also succumbed, leaving the four giant strands stretching out grimly through the glare of the fire at the shore and fading away into the semi-darkness of mid-river.

It had been the custom for scores of workmen at the close of the day's work to cross the footbridges from one side of the river to the other on their way home. It was rumored among the crowd that many of them had been caught by the fire while on their way across, but no confirmation of this report could be found.

What Children Should Be Taught.

Merely what is contained in the textbooks is not what children should be taught at schools. They should learn justice and right and fairness and the principles of right living. Justice is done they are sure to realize it, and it will have a bad effect upon them. Character is formed at school. An unjust rule will not tend to make just men and women out of the boys and girls who are compelled to observe it.—Toledo Bee.
